IWMA Water Mist Seminar in Italy – Webpage active

Hamburg, 16th January 2019. As of today, the webpage for the IWMA seminar in Italy organized by the International Water Mist Association (IWMA) is active. The event will take place in Milan at FAST (Fondazione delle Associazioni scientifiche e tecniche) on 11th April 2019. Its title: “Fire Protection with Water Mist”. “A brief history of the organization and the technology will be followed by case studies to give the delegates an idea about the numerous applications”, explains Bettina McDowell, IWMA General Manager.

The seminar will be accompanied by an exhibition. Manufacturers will showcase products, hand out brochures and answer questions concerning the technology in general and their projects in particular.

IWMA would like to invite 70 delegates to this event. Interested parties can register and obtain free tickets via the event webpage which is accessible via the IWMA webpage www.iwma.net.
