

20th International Water Mist Conference

7th & 8th October 2020 in Warsaw, Poland

CALL FOR PAPERS

General Information

Objective:

The conference will inform those responsible for selecting fire protection as well as researchers / scientists who wish to be updated on the current state of water mist technology for fire protection. Day 1 can be booked separately and its focus will be on applications and actual solutions. Day 2 will deal with research, testing and regulations. The conference is open to anybody.

Target Audience

safety engineers, consultants, manufacturers, fire brigades, researchers, government bodies, insurance companies, authorities having jurisdiction

Conference Venue

Regent Warsaw Hotel
Belwederska Ave, 23, 00-761 Warsaw, Poland
contact person: Kamila Halasa
mail: kamila.halasa@regent-warsaw.com

Accommodation

Delegates are responsible for their hotel arrangements! However, the conference hotel will provide rooms at a special rate for IWMC participants. Reservations can be made from 15th May onwards! The hotel will provide a link and a pdf-file to make bookings! Note: 45 days prior to the event the contingent will be released (22nd September)

Email: info@iwma.net

Call for Papers

Those wishing to give a presentation, may submit an abstract no later than 15th May 2020.* Please send all abstracts to mcdowell@iwma.net. According to the template** abstracts should not exceed 2 pages and should include the title of the paper, the name(s) of the author(s), the person(s) presenting and the affiliation, including the address, telephone, fax number and e-mail address.

Topics

- **System Applications:** solutions for mass transport systems, traffic tunnels, office buildings, hotels, archives and galleries, storage and sales areas, health care facilities, industrial processes and other new applications where water mist has been found to be a cost effective replacement for halon and sprinkler systems.

- **Regulations, Standards and Codes:** assessment of currently available regulations, planned standards and changes to standards, including gaps in regulations and further needs

- **Research & Testing:** small and large scale testing, suppression technologies, spray characteristics, advantages / disadvantages of water mist systems, comparison to other firefighting methods, CFP Modelling and research needs in the future

- **Environmental and Health/Safety Issues:** environmental effects of water mist and other agents (chemical gases etc.) as well as discussions on health issues.

- **Detection, Innovation Technologies**

The notification of acceptance will be mailed by **22nd June**. Final versions of presentations are **due on 9th September**.

*Abstracts may under certain circumstances and by request be accepted at a later date. **Please ask IWMA HQ for the template!
