

21st International Water Mist Conference

9th & 10th November 2022 in Madrid, Spain

CALL FOR PAPERS

General Information

Objective:

The event will inform those responsible for selecting fire protection as well as researchers / scientists who wish to be updated on the current state of the water mist technology for fire protection. Day 1 can be booked separately and its main focus will be on applications and actual solutions. Day 2 will primarily deal with research, testing and regulations. The conference is open to anybody interested.

Target Audience

safety engineers, consultants, manufacturers, fire brigades, researchers, government bodies, insurance companies, authorities having jurisdiction, end customers

Conference Venue

Elba Madrid Alcalá Hotel
C. de Alcalá 476, 28027 Madrid
contact person: Lucia Garcia Molina
mail: madrid.eventos1@hoteleselba.com

Accommodation

Delegates are responsible for their hotel arrangements! However, the conference hotel will provide rooms at a special rate for IWMC participants. Reservations can be made from 31st May onwards! The hotel will provide a promotion code for IWMC delegates! Note: 30 days prior to the event 50% and 10 days prior to the event the remaining contingent will be released!

Email: info@iwma.net

Call for Papers

Those wishing to give a presentation, may submit an abstract no later than 16th May 2022.* Please send all abstracts to mcdowell@iwma.net. According to the template** abstracts should not exceed 2 pages and should include the title of the paper, the name(s) of the author(s), the person(s) presenting (including bios) and the affiliation, including the address, telephone, fax number and e-mail address.

Topics

- **System Applications:** solutions for mass transport systems, traffic tunnels, office buildings, hotels, archives and galleries, storage and sales areas, health care facilities, industrial processes and other new applications where water mist has been found to be a cost effective replacement for halon and sprinkler systems.

- **Regulations, Standards and Codes:** assessment of currently available regulations, planned standards and changes to standards, including gaps in regulations and further needs

- **Research & Testing:** small and large scale testing, suppression technologies, spray characteristics, advantages / disadvantages of water mist systems, comparison to other firefighting methods, CFP Modelling and research needs in the future

- **Environmental and Health/Safety Issues:** environmental effects of water mist and other agents (chemical gases etc.) as well as discussions on health issues.

- Detection, Innovation Technologies

The notification of acceptance will be mailed by **16th June 2022**.

Final versions of presentations are **due on 2nd November 2022!**

*Abstracts may under certain circumstances and by request be accepted at a later date. **Please ask IWMA HQ for the template!
