

## PRESS INFORMATION

### **20<sup>th</sup> International Water Mist Conference (IWMC) to take place in October 2021**

**Hamburg, 15<sup>th</sup> February 2021.** The International Water Mist Association (IWMA), has announced that IWMC 2021 (the 20<sup>th</sup> International Water Mist Conference 2021) will take place on 27<sup>th</sup> and 28<sup>th</sup> October 2021. The venue will remain unchanged: Warsaw, Poland, Regent Warsaw Hotel.

“Reluctantly, we have decided to once again postpone the event, because we do not know what conditions we would have faced in April. We prefer to meet face to face and hope that this will be possible in October“, explains IWMA general manager Bettina McDowell.

The call for papers was issued on 15<sup>th</sup> February. The deadline for the submission of abstracts is 31<sup>st</sup> May. That is also the day when the conference webpage will go live. On 15<sup>th</sup> July, the programme will be published and the early bird period, during which IWMA will offer reduced tickets, will end on 30<sup>th</sup> July. For this event IWMA will offer special prices for locals.

Day one will as always be “Applications Day” and can be booked separately. Day two will mostly be dedicated to sciences and research.

The water mist conference is an annual event and the only event solely dedicated to the water mist technology.
