23rd International Water Mist Conference – Call for Papers published

Hamburg, 15th January 2024. The 23rd International Water Mist Conference (IWMC) will take place in Antwerp, Belgium, on 18th and 19th September 2024. The conference venue will be the Radisson Blu Astrid Hotel. The call for papers has now been published. Abstract deadline is 15th May.

Sponsors can now start booking their tabletops for the exhibition which will run alongside the conference.

Ticket sales start on 15th May when the conference webpage will be activated. For the first few months, delegates can benefit from special prices during the early bird period which will end on 14th August.

IWMA general manager Bettina McDowell explains: “Day one will – as always – mainly deal with systems in practice, whereas day two will be dedicated to the scientific side of water mist. Regarding the topics, we are especially looking forward to abstracts dealing with timber buildings. But all other topics are of course also welcome.”

Also important: the deadline for submissions to apply for the Ragnar Wighus Award is 28th March. In 2024, this award will go to the author of the best master thesis dealing with water mist. The IWMA scientific council, chaired by Max Lakkonen (IFAB), will evaluate the submissions and pick the winner who will be invited to introduce the thesis at the event.
