IWMA to hold 4th Seminar in Dubai during Intersec

Hamburg, 24th October 2018. The International Water Mist Association (IWMA) will hold a fourth free of charge seminar during Intersec. The seminar will take place at the Dubai Convention Centre in Dubai, UAE, on 21st January 2019. Its title: “Fire Protection with Water Mist”. A brief summary about the organization, the possibilities and the history of water mist will be followed by case studies to give the delegates an idea about the numerous applications.

Bettina McDowell, IWMA General Manager, explains: “IWMA would like to invite 70 delegates to this event. An event page is currently under construction and will be activated on 15th November 2018. The webpage will include amongst others the programme as well as the registration tool.”

The seminar will be accompanied by an exhibition. Manufacturers will show products, hand out brochures and answer questions concerning the technology in general and their projects in particular.

Please save the date and do not miss out on this add-on event to Intersec!

The event will start at noon and end at 5. p.m.
